Our staff is experienced in providing formulating, raw material procurement, package/art design, filling and secondary packaging. Guy Chemical is your low cost source for quality silicone and epoxy adhesives and greases.

Tuesday Tour-Baer Brothers Maple Camp is a maple producing, family operated and owned farm. They own and rent over 4,000 taps. Each spring, They put a new tap in their maple trees as the winter ends and spring returns. They boil this precious sap into a delicious maple syrup over a wood fired evaporator. Many weekends, They create delicious treats of spotza or sugar on snow and invite friends, neighbors, and visitors to view their maple syrup as it boils. Year round, they offer various grades of maple syrup to their customers in a variety of take home containers, from plastic to decorative glass. In addition to the syrup, they create and sell maple confections of maple cream, sugar, and candy, all made of pure maple syrup. They boil February through March. Tours are given by request. They also assist new and established customers with their maple production needs.

Thursday Morning Tour-Located on approximately 1,000 acres in Somerset, PA, the International Conservation Center, or ICC, is North America's premier conservation, research, education, breeding, and training facility, specializing in the care and breeding of African elephants. The ICC is the only center of its kind with such a strong focus on this beautiful and threatened animal.
